Mowleeswari Aneesh

Aspiring python Developer with a passion for Front-End Development| Django| HTML| CSS| Bootstrap| Passionate about fusing creativity and technology for user delight

Manjeri, Kerala, India

Summary

I'm an aspiring Python developer passionate about building real-world solutions using clean, efficient code. With a strong foundation in object-oriented programming, functions, and control flow, I enjoy turning complex problems into simple, readable scripts. Currently focusing on: Python fundamentals & best practices Developing projects using OOP concepts Building CLI tools and mini-applications Exploring modules, string manipulation, and file handling I'm actively sharpening my skills through personal projects and continuous learning, aiming to grow into a full-stack developer or specialize in backend/API development. Learning Every Day | Building Small Projects | Open to Internships & Collaborations Let's connect and grow together in the tech space! Projects & code portfolio: github.com/aneeshmowleeswari-del/code-challenge.git

Education
